Software Requirements Specification

1. Introduction

1.1 Purpose

The purpose of this document is to collect and analyze all assorted ideas about our project "KIDSNOTE". Document ideas that are being considered but may be discarded as the product develops.

The main purpose of this Software Requirements Specification (SRS) document is to provide a detailed overview of our software product, its parameters, and goals. This document describes the project's target audience and its user interface and software requirements.

1.2 ~~Scope~~

~~This project's scope is to recognize the requirements, not for making application or website. This project's scope may change by team project's progress,~~

~~1.3~~ Definitions, Acronyms, and Abbreviations

SRS	Software Requirement Specification
SNS	Social Network Service
FAQ	Frequently Asked Questions

1.5 Overview

The remaining sections of this document provide requirements. Section 2 gives specific requirements of the project. There may be more requirements than we noted but we can't think about performance, security, interfaces, or Licensing requirements because we don't have knowledge of them. Section 3 gives supporting information for this project but at this moment we just have SRS. There may be added use case analyze, UML models and so on

<u>Project name</u>	<u>Version: <3.0></u>

2. Specific Requirements

~~The specific requirements are—~~

2.1 Functionally

2.1.1 Manage child

2.1.1.1 The system shall automatically record time to go and to leave kindergarten.

2.1.1.2 The system shall record attendance.

2.1.1.3 The system shall report records monthly.

2.1.1.4 The system shall record what children did at kindergarten or at work-study.

2.1.1.5 The system shall report diet daily and provide which company give the diet.

2.1.1.6 The system shall provide a medication policy.

2.1.1.7 The system shall record the medicine child takes.

2.1.1.8 The system shall save child's development record.

2.1.1.9 The system shall record child's temperature.

2.1.2 Detailed kindergarten management

2.1.2.1 The system shall distinguish users (the head of kindergarten, teachers, parents).

2.1.2.2 The system shall ~~change~~ set the head of kindergarten.

2.1.2.3 The system shall set~~change~~ the name of kindergarten.

2.1.2.4 The system shall set~~change~~ the name of class.

2.1.2.5 The system shall ~~add/delete~~ manage the list of teachers.

2.1.2.6 The system shall ~~change~~ manage the list of children.

2.1.2.7 The system shall ~~add~~ invite parents ~~by inviting~~.

2.1.2.8 The system shall manage kindergarten's schedule.

2.1.2.9 The system shall set the teacher of class.

<u>Project name</u>	<u>Version: <3.0></u>
<u>Software Requirement Specification</u>	<u>Date: <10/22/22></u>

2.1.3 Online communication support

- 2.1.3.1 The system shall provide online chatting service.
- 2.1.3.2 The system shall provide online Parent-Teacher conference.
- 2.1.3.3 The system shall provide record Parent-Teacher conference.
- 2.1.3.4 The system shall provide online notice for parents.
- 2.1.3.5 The system shall provide spell checker in chatting process.
- 2.1.3.6 The system shall provide online admission process.
- 2.1.3.7 ~~The system shall provide reservation of notice.~~
- 2.1.3.8 The system shall provide reservation of comment/~~notice~~.
- 2.1.3.9 ~~The system shall provide online poll service.~~
- 2.1.3.10 ~~The system shall provide online survey service.~~

2.1.4 Children's album

- 2.1.4.1 The system shall have album that records children's photography.
- 2.1.4.2 The system shall maintain student's album before erasing it.
- 2.1.4.3 The system shall support album sharing via SNS.
- 2.1.4.4 The system shall classify by child.
- 2.1.4.5 The system shall provide comment about the album.
- 2.1.4.6 ~~The system shall download photography.~~
- 2.1.4.7 The system shall upload/~~download~~ photography.

2.1.5 Provide parents' support

- 2.1.5.1 The system shall provide online consult service.
- ~~The system shall provide online help, sitemap options for parents' support.~~

2.1.6 Online tracking of kindergarten bus

- 2.1.6.1 The system shall display the current ~~tracking information about the~~ location of bus.

<u>Project name</u>	<u>Version: <3.0></u>
<u>Software Requirement Specification</u>	<u>Date: <10/22/22></u>

2.1.6.2 The system shall set the path of the bus.

2.1.6.3 The system shall set the condition of the bus.

2.1.7 Manage class for teacher

2.1.7.1 The system shall record teacher's rest time to guarantee a break time.

2.1.7.2 The system shall set time to use system for not to use phone a lot.

2.1.7.3 The system shall shut down after kindergarten closed.

2.1.7.4 The system shall manage children in class.

2.1.8 Provide multiple class management

2.1.8.1 The system shall provide setting for multiple class.

~~2.1.9 Provide personalized profile~~

~~————The system shall provide color setting for manager of kindergarten.~~

~~————The system shall display the detailed information for each class.~~

2.2 Usability

2.2.1 Graphical User Interface

~~————The system shall provide use of icons and toolbars.~~

~~————The system shall provide a digital image for each teacher.~~

~~————The system shall provide a uniform look and feel between each kindergarten.~~

2.2.2 Accessibility

~~————The system shall provide handicap access.~~

~~————The system shall provide multi language support.~~

3. Supporting Information

~~————At this moment nothing.~~ Use Case Specification V3.0
